JOB TITLE

Frontend Engineer — Intern

e.g., "Senior Backend Engineer" or "Product Designer - Junior"

DESCRIPTION

We're hiring a frontend intern to ship features alongside the founding team. You'll work in our React + TypeScript codebase, ship to production weekly, and own a slice of the product end-to-end...

REQUIRED SKILLS · VERIFIED-BY-CAPTURE ONLY

◆ React ×

◆ TypeScript ×

◆ Tailwind CSS ×

Type to add a verified skill...

These determine match scores. Candidates must have evidence in their captured work.

NICE-TO-HAVE SKILLS

Next.js ×

Figma ×

Type to add...

EXPERIENCE LEVEL

Employment Type

Internship / pre-grad

## Public profile

The artifact. What workers share on LinkedIn / résumé / applications. What hiring managers see when they click a candidate from search.

**Primary job:** prove. Verified skills with evidence. The "GitHub for non-developers" pitch made visible.

02

Recent work

LAST 30 DAYS · 23 SESSIONS

Brodey spent the last 30 days building an auth flow for a side project (Project Aurora), iterating on a Figma design system, and reviewing pull requests on a teammate's e-commerce starter. Most recent work focused on cross-stack debugging – connecting React Server Components to a Postgres backend.

#### WHAT THIS IS

Four web wireframes — the public-facing artifact (Public Profile) and the hiring-manager workflow (Search, Dashboard, Job Post). Combined with the [desktop wireframes](#), this is the full v2.0 product surface.

#### DESIGN SYSTEM

Website light palette (warm paper #fafaf9, ink #080503, brand purple #8b5cf6). Instrument Serif display + Instrument Sans body + JetBrains Mono. Zero border-radius except pill CTAs. See [00-design-system.html](#).

#### NEXT

Web team scaffolds these in Next.js + Tailwind + shadcn/ui. The HM dashboard and Job Post UI are the v2.0 deliverables that unblock revenue. Public profile redesign is also v2.0.
